

Acquisition of topographic equipment: two (02) differential GNSS receivers (with their accessories): post-processing software with a license, four (04) Trimble Catalyst DA2 GNSS devices with a one-year subscription per device, and two (02) total stations for the densification project of the geodetic reference network and leveling for the benefit of the General Directorate of Geographic Information and Mapping of the Ministry of Urban Development, Housing, and Land Reform.

1. The Ministry of Urban Development, Housing, and Land Reform has allocated funds in its 2024 management budget to finance the densification of the geodetic reference network and leveling for its General Directorate of Geographic Information and Mapping and intends to use part of these funds to make payments under the contract, the subject of this tender notice.

2. The Ministry of Urban Development, Housing, and Land Reform requests closed bids from digital candidates meeting the required qualifications for the supply of topographic equipment in three (03) lots.

Lot 1: 2 differential GNSS receivers (with their accessories: post-processing software with a license).

Lot 2: 4 Trimble Catalyst DA2 GNSS devices with a one-year subscription per device.

Lot 3: 2 total stations.

The Bidder may submit its bid for one or all three lots. No bidder can win more than 2 lots. The place of delivery is at the General Directorate of Geographic Information and Mapping, Lomé. The delivery period for the supply of topographic equipment is a maximum of 2 months. No variation will be considered.

3. The procurement process will be conducted as defined by the current public procurement code and implementing texts and is open to all eligible candidates.
